My Favourite **Kishan Jain**

The director of Goldmedal Electricals cannot get enough of Switzerland – a country he believes is just perfect

 I prefer reading biographies and motivational books – one of my favourites is *Steve Jobs* by Walter Isaacson. Apple is a fascinating company and it was wonderful to read how it was built through this book.

 I enjoy watching movies that deliver important social messages besides those that are hilarious. Thus, while *Swades*, *Chak De*, *Dangal* are some of my favourites, I am also a fan of movies such as *Andaz Apna Apna*, *Hera Pheri*, *Munnabhai*, *3 Idiots* and *Golmaal*.

 I love to watch and play cricket; it's a sport that I have loved since childhood. There's something inexplicable about it that just makes it exciting!

 It has to be Chinese food! I absolutely relish the fusion of flavours and it tastes good every time. Some of my all-time favourite restaurants are those that serve good Chinese cuisine.

 I love Europe, but Switzerland in particular. Everything about that country is impressive to me – from the cleanliness and natural beauty to the architecture and chocolates! The best part about the region is that nothing seems flashy – everything is just nice and perfect.

More From My Favourite
