Covid19 Pandemic Triggers Massive Usage Of Contactless Technology: How It Will Shape Our Lives?

*This is a Guest Post by Kishan Jain, Director at Goldmedal Electricals*

The impact of the pandemic has caused disruption in the lives of every individual across the globe and has transformed the way we live. The pandemic has, however, led to an increased adoption of digital technologies in day-to-day functioning.

The shift toward contactless technology solutions has also seen a growth and the segment has been expanding over the years, especially with the invention of voice-controlled devices. The COVID-19
