Goldmedal introduces new i-Touch 6 switches

FMEG Company Goldmedal Electricals has introduced its i-Touch Wi-Fi 6 Module, which is the latest in its already selling range of IoT enabled, i-Touch Wi-Fi switches.

The range comes with support for digital assistants like Alexa and Google assistant while allowing you to remotely control electrical fittings even via voice commands.

This module, which includes six switches, one fan regulator, 2 USB sockets and an international socket, is easy to set-up, requiring no change in wiring according to the manufacturer.

Available at major retail outlets, Goldmedal's i-Touch WiFi- 6 Module Switch will be out for purchase at Rs 9,999.
