Goldmedal Hoopla decorative fan

While shimmering lights are a fundamental part of home décor, this festive season you must think beyond lights and bring the festive vibes with innovative pieces that add aesthetic value. One of the must-have pieces is the new Goldmedal Electricals 'Hoopla' ceiling fan under their decorative ceiling fans category. It has a sophisticated blend of metallic rings on the motor and luxury embellishments on the blades, which gives it an advantage over other fans in the market. The fan is finished in a one-of-a-kind, highly sophisticated anti-dust paint finish that prevents dust settlement and paint chipping, allowing the fan to keep its shiny appearance for longer. Hoopla decorative ceiling fan is priced at Rs 3450/- and comes in three special colours: Champagne Gold, Titanium Silver, and Burgundy Brown.
