## EXPERIENCE THE *Amazing!*

Goldmedal devices truly live up to their tagline of being "amazing". In many cases, they even go beyond amazing. Why do I say that? I realized that every Goldmedal product has a certain style and finesse about it that makes you want to look at them twice. From the different types of switches and cover plates to the fans to their home automation products and LEDs - everything has an air of precision and balance that inspires amazement.

Personally, I understand how a beautiful scene gets crafted on film. There's the director's vision, there's a group of talented actors, there's passion and creativity on the sets, and there is the brilliance of the supporting cast and crew. I see a similar set of synergy manifesting through the entire product range from Goldmedal.

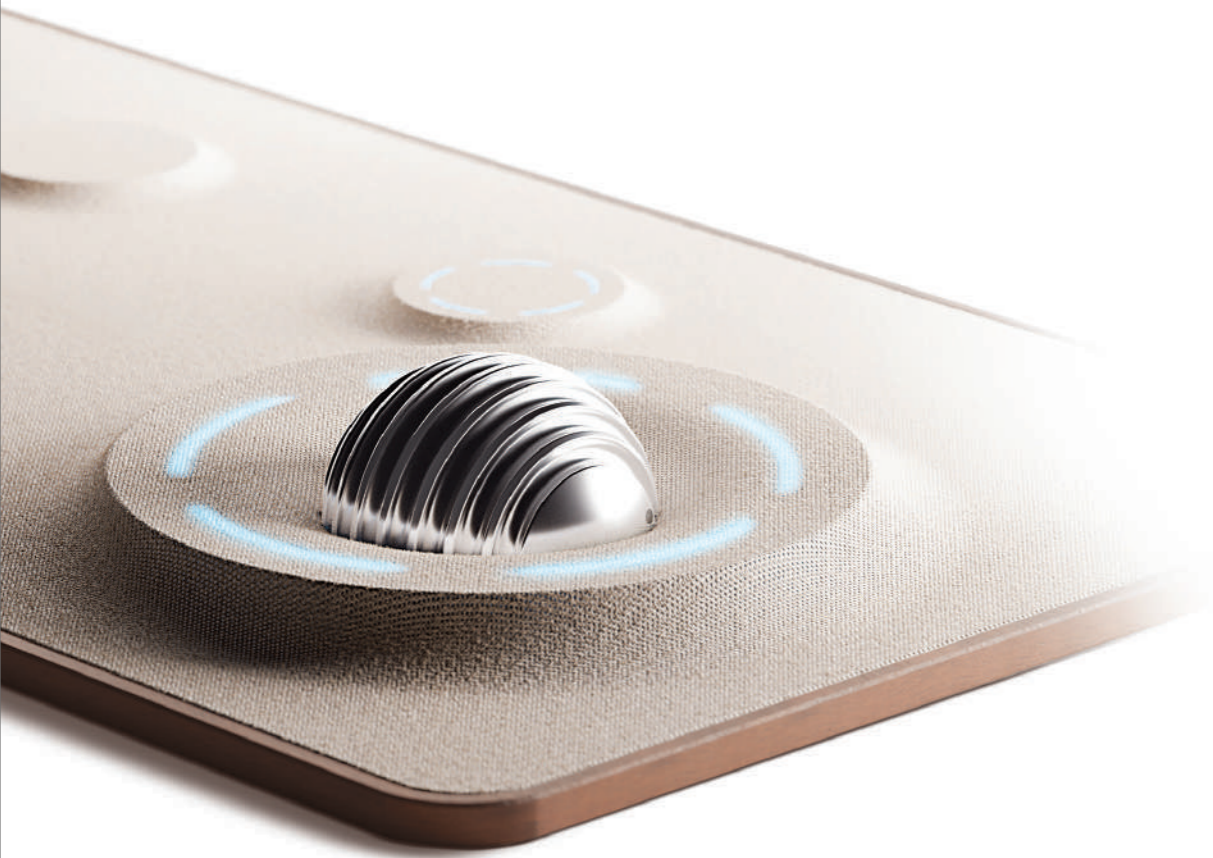

To me, Goldmedal seems to be locked into this zone where they are always striving to deliver the amazing. It's an endeavour that fascinates me and makes me proud to be associated with. As their brand ambassador, I'm delighted to be a part of their quest to create some of the most amazing products and experiences in this industry. I welcome you to be a part of this journey and experience the amazing along with me.

**Jacqueline Fernandez**  
Brand Ambassador

CELEBRATING  
EXCELLENCE

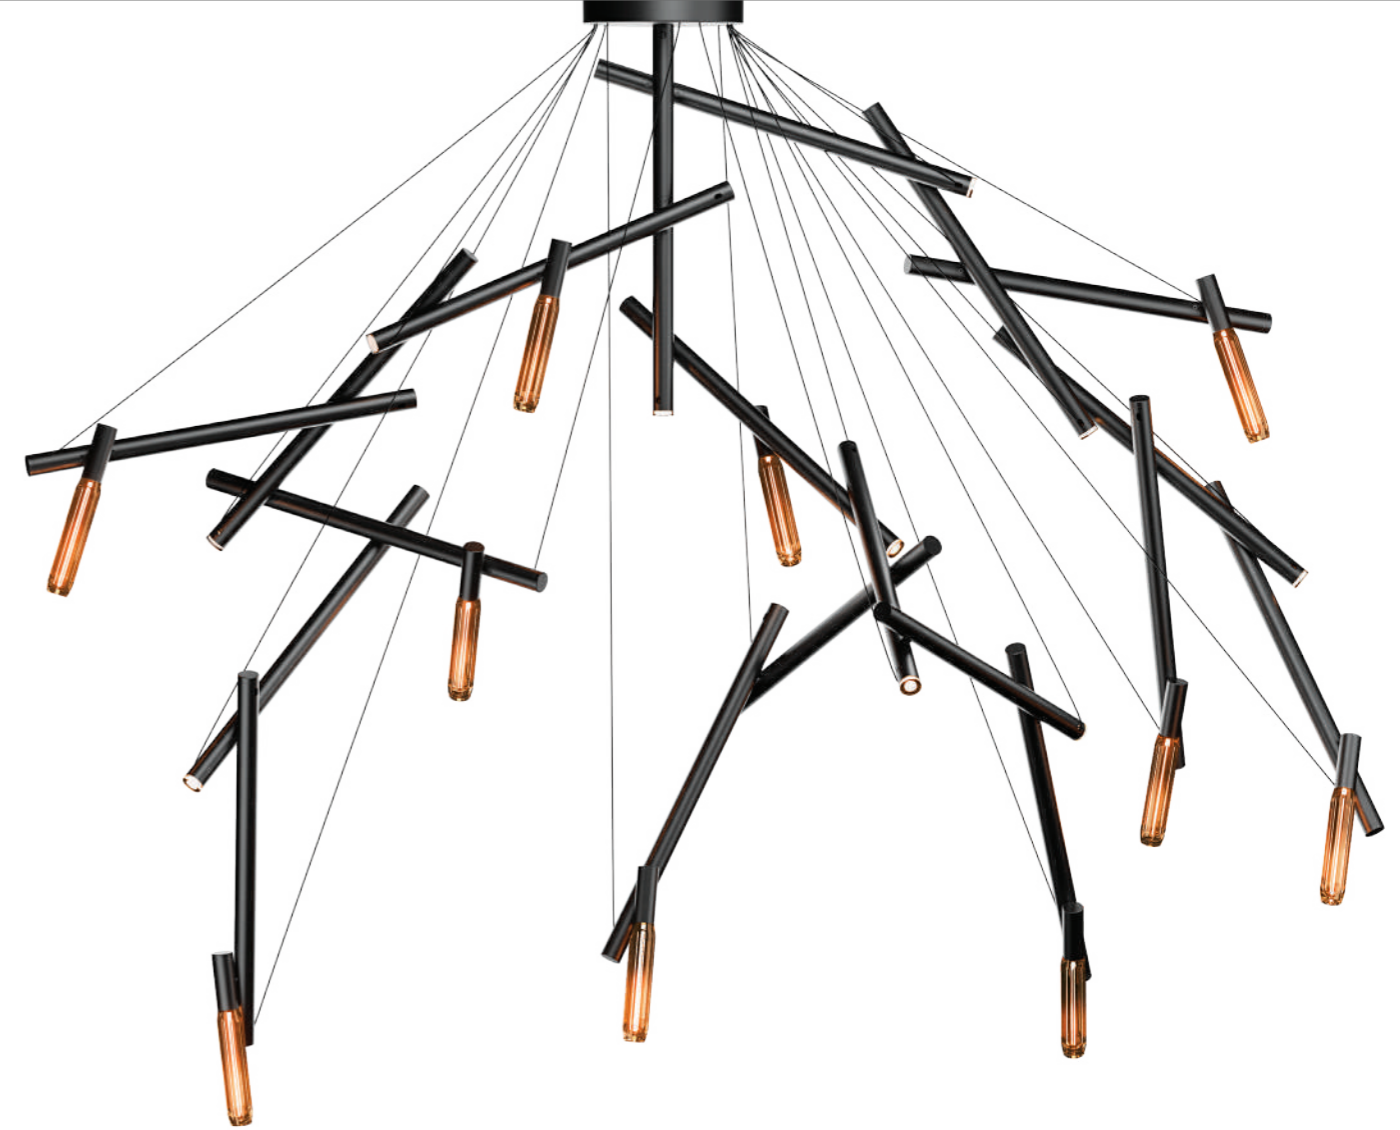

reddot winner 2025

loom.

Crafted for India. Celebrated by the World.

The Loom switch by Goldmedal has been awarded the prestigious Red Dot Award - one of the highest honours for design excellence. Integrating fabric as a functional element, Loom is a bold reimagination of a household essential. This global recognition reaffirms Goldmedal's commitment to creating everyday products that are not just functional, but truly world-class.

winner 2026

ROOTS

Rooted in Nature. Alive with Light.

The ROOTS Lighting System by Goldmedal has been recognised with the iF Design Award 2026, joining the ranks of the world's most celebrated design achievements. A living, modular installation that breathes and responds to the air around it, ROOTS reimagines light not as a utility, but as a presence. One that thinks, adapts, and glows with quiet purpose. A proud reflection of Goldmedal's vision to keep pushing the boundaries of light and design.

## OUR DNA

Built for today.  
Inspired by tomorrow.

For over four decades, Goldmedal has pioneered innovation in electrical solutions. Now, Goldmedal elevates your lifestyle to the next level with its new range of Zigbee-based home automation. This revolutionary wireless technology brings the future of intelligent living into your homes and offices, transforming them into responsive, intelligent spaces that adapt to your needs.

The Zigbee-powered home automation solutions are an evolution in making life better. With Zigbee at its core, these home automation products deliver unparalleled advantages: ultra-low power consumption enabling years of battery life, advanced mesh networking for seamless connections, and reliable connectivity throughout every corner of your space. Zigbee's unique mesh technology creates a robust ecosystem within your space that grows smarter with every addition.

Combining decades of electrical expertise with tomorrow's smart technology, Goldmedal transforms the way you interact with your environment. Experience your space becoming more intuitive, efficient, and responsive to your lifestyle. From energy savings to enhanced security, from mood-perfect ambiance to effortless control—every feature is crafted to elevate how you live, work, and relax.

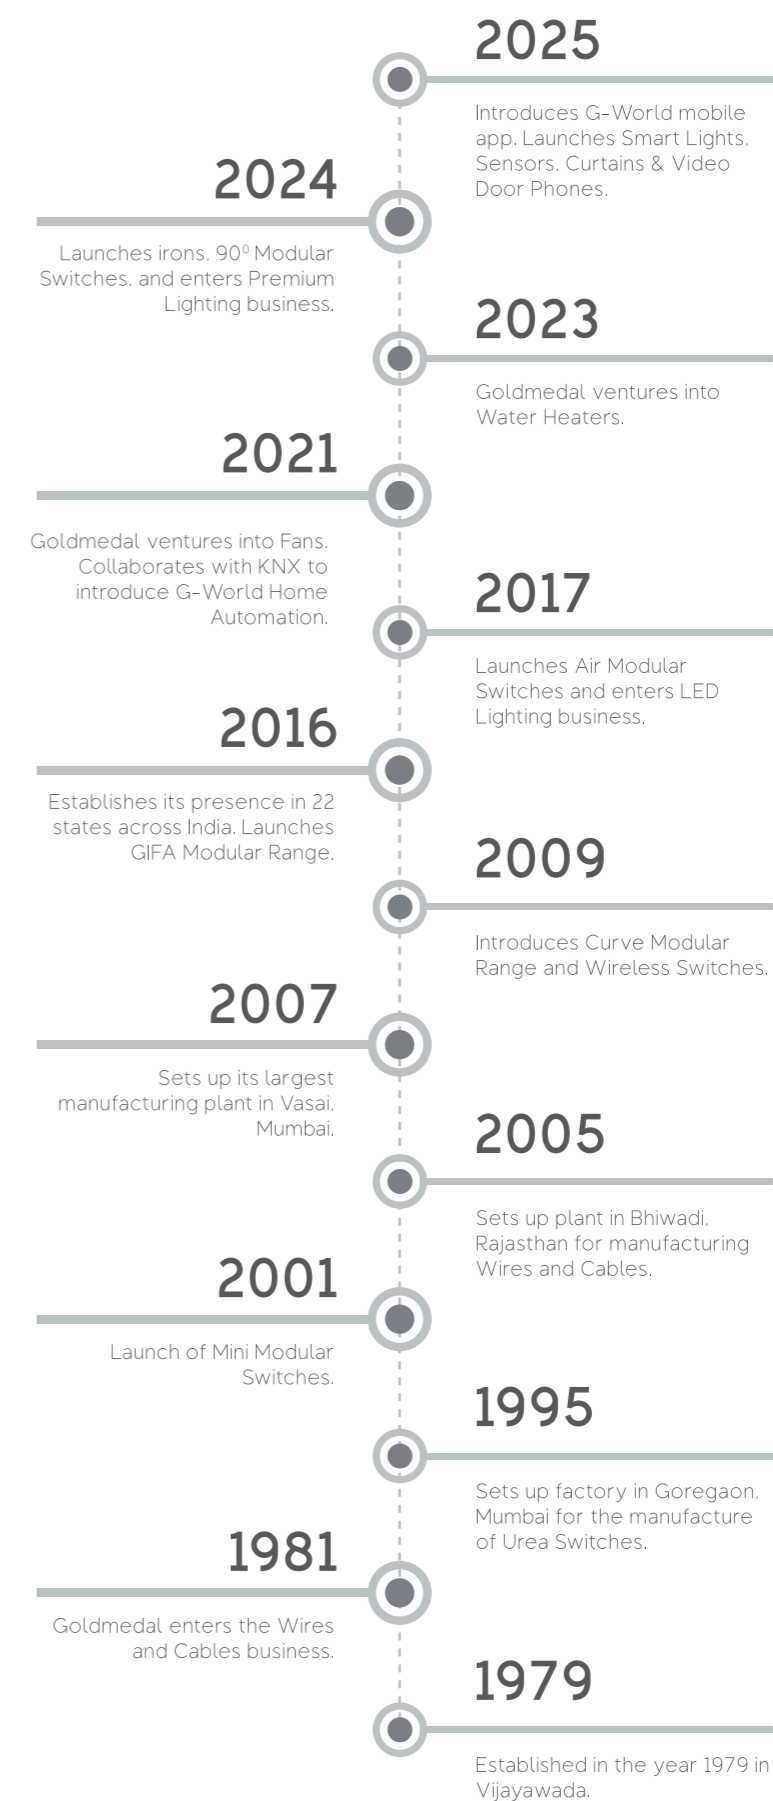

Welcome to the future of home automation. Welcome to Goldmedal's vision of smarter living.

## MILESTONES

Back in 1979, life was much simpler. Fuel prices weren't so high, Roads weren't as good. There was more time in our hands. There were lesser people. It was at a time like this that we first started off with Goldmedal, as a retailer for a few of the leading electrical brands of the country. Right from the onset of our journey, our vision was clear — to make a difference to the lives of Indian consumers.

Over time, we ventured into product manufacturing, which enjoyed a tremendous demand from our customers and helped us to widen our scope of activities. Today, we're one of the major manufacturers in the Indian electrical segment with top-of-the-line infrastructure, tool room and testing facilities at our manufacturing units in Maharashtra, Andhra Pradesh and Rajasthan. With our philosophy to channelize efforts in the latest technologies, we have developed products that have lived up to the promise of being amazing! From market research, to the final product, we make sure that ample time is spent on every process in between, however big or small. Because that's the only way to make products that create amazing lifestyles.

Goldmedal has had an incredible innings so far and have successfully launched and expanded our portfolio. And now we are ready for the next chapter. The future of automated electrical systems with Zigbee technology. We welcome you to join us on this journey!

## WORKS SMART. LOOKS EQUALLY SMART.

Aspire 30  
Multifunction Button

If you are looking for a home automation system that looks as smart as it works, then look no further than the Aspire 30 Multifunction Button. Available as two module panels with four buttons on each panel, the buttons can function either as a switch or a control for up to two scenes. The Aspire 30 range also includes a module with a fan regulator and another with a USB port, a mechanical switch, and an international socket. Each panel has a replaceable decorative frame that can be used to complement your interiors and lifestyle.

## CONTROL ONE DEVICE. OR MANY. WITH JUST A CLICK.

### Aspire 20 Multifunction Button

The Aspire 20 Multifunction Button can not only be a stylish addition to your home, they are also the most practical home automation systems you can use. Enabled through Goldmedal's proprietary gateway, the Z-Hub, these buttons are available in 1, 2, 3, and 4-button options. Each button can be programmed to function as a switch or operate up to two scenes - where one click activates the first scene and two clicks activates the second. The Aspire 20 family also includes a module with a mechanical switch and universal socket. The buttons fit seamlessly into Goldmedal Z-Fix junction boxes. There is no need for any new wiring either.

## CRAFTED FOR PRECISION. BUILT FOR MORE.

Hyper X  
Aspire 10 - Multifunction Button

The Aspire 10 Multifunction Button is a wired switch that combines both switch and scene functions. Apart from controlling the lights in your premises, the Aspire 10 Multifunction Button offers plenty of options. This includes buttons with different combinations to suit your precise needs. You have the option to define one or multiple scene using the Scene button, operate and control your fan, charge your electrical devices using the 10A Universal Socket, and charge your mobile devices using the Type-C socket. Sleek and stylish, the Aspire 10 Multifunction Button is available in multiple colour options to suit your interiors.

## SMART LIVING. JUST A TOUCH AWAY.

GIFA  
i-Touch Zigbee Panels

The GIFA i-Touch Zigbee panels are designed to offer seamless control of all your electrical devices through the Z-Hub. Available in 2, 3 and 6 modules, these panels include a range of functionalities to meet any of your lifestyle needs. From switching devices ON and OFF to drupe controllers, fan regulators, high-speed Type C ports, and one-touch master control, you can choose the panel of your choice. These functions can also be activated through Hyper X scene switches, the G-World app, or voice commands. You can also define scenes, schedule operations, and set timers using the G-World app. Installation is also a breeze as they easily fit into regular junction boxes without the need for any new wiring.

## THE CAPACITY TO ACHIEVE MORE. IN STYLE.

Hyper X  
Button Remote/Scene Switch

If you want to group your lights and synchronize their settings then look no further than the HyperX 8 Button Remote. You can create four groups of lights for this remote using the G-World app - A, B, C, and D. Once the lights are assigned to a particular group, simply tap the button to switch the lights in that group ON. Then use the + and - buttons to increase or decrease the luminosity of the lights. Use the \* buttons to tune the lights to the specific colour you need. Control can be through the remote as well as the G-World app. And the best part, you do not need any Wi-Fi once the lights have been synced. Now isn't that amazing!

## BRILLIANCE IN EVERY CORNER.

Polo  
Smart LED SMD Downlight

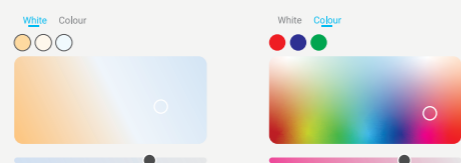

Crafted with a durable aluminum die-cast housing, the Polo downlight is a modern recessed light that features a sleek design with a gun black reflector. It can be operated by Goldmedal's Zigbee button switches, scene buttons, smart rotary knobs, remote controls, and the G-World app. Seamlessly fitting into modern interiors, the Polo can transition from 3000K to 6500K, providing lighting that is perfect for homes and businesses. With a high lumen efficacy of 90 lumens per watt, it saves energy while creating the ambience that you need.

Can also be operated by Z-Hub Gateway  
via Goldmedal G-world app or via Hyper X Scene Switches

All these LED lights are compatible with Hyper X Smart CCT Drivers  
Drivers need to be bought separately (Please refer page no.47).

## ONE LIGHT. INFINITE MOODS.

**Xenon**  
RGB LED Spotlight

The Xenon smart light can be operated using Goldmedal's Zigbee button switches, scene buttons, smart rotary knobs, remote control, and the G-World app. Truly versatile, the Xenon can switch from 1% to 100% brightness, transition from 2700K to 6500K, or display a spectrum of RGB colours to create the ambience of your choice. Making it extremely convenient is the G-World app; sync, control, and manage with just a tap. The Xenon is also compatible with voice commands; express your needs through Alexa or Google Assistant to create the effect you need. The Xenon also has in-built surge protection that makes it highly durable.

## LIGHTS THAT SET THE SCENE.

### Airloop Smart Magnetic Surface Track Light

Epitomizing innovation and versatility, the Airloop magnetic surface track light series is a premier lighting solution. Its low voltage design enables hands-on installation and adjustments of light modules even when the power is on. The Airloop allows standard as well as smart LED fixtures to be effortlessly attached and positioned. It caters to countless configuration possibilities due to its extensive options of profiles, connections, light modules, and control options. The Airloop is a highly desirable option for dynamic spaces seeking both functional and aesthetic lighting solutions.

## PRECISE. MINIMAL. MAGICAL.

### Hyperloop Smart Magnetic Recessed Track light

The Hyperloop magnetic recessed track light represents an innovation in the architectural lighting sector. Blending design with technology, the Hyperloop system is installed flush with the surface and includes smart controls to adjust lighting settings with precision. Built on a low-voltage system, this recessed lighting system ensures energy efficiency and safety. Its magnetic track allows for easy installation and seamless integration, offering a minimalist aesthetic that enhances any space. Its flexibility, coupled with smart technology, makes it an ideal choice for forward-thinking architectural projects.

via Goldmedal G-world app or via Hyper X Scene Switches

For these recessed magnetic track lights, use Hyperloop track & accessories (Please refer consumer lighting price list)

## SMARTER LIGHT STARTS HERE.

Hyper X  
Smart CCT Driver/Gateway

The Smart Correlated Colour Temperature (CCT) Driver/Gateway offers a range of functionalities beyond standard lighting. This includes smooth and precise dimming from 1% to 100%, adjusting colour temperatures from a warm 3000K to a cool 6500K, programming of lights, and the creation of multiple lighting set ups. These drivers connect to the Z-Hub, enabling smart home integration, remote control, and voice command support. They can be controlled via the G-World app, remote controls, and voice assistants like Alexa and Google Assistant.

HELLO.  
YOU ARE WELCOME.

Z-Care  
Video Door Phone

Integrate this smart IP video door phone with in-built Wi-Fi function to manage visitors at your home or building. You can either use an indoor unit to see and communicate with your visitors or integrate it seamlessly with your existing touch panel. The two-way communication system enables you to visually and verbally interact with your visitors and even open the door. You can open the door if you are not physically present in the room.

## ALWAYS ON. ALWAYS AWARE.

Hyper-X  
Smart Sensors

Goldmedal's smart sensor products boost energy efficiency and safety in your homes and offices. While the smart Occupancy Sensor registers everything from a quiet breath to a brisk stride, the smart Motion Sensor detects movements to trigger automated actions. Both these devices can signal a group of lighting devices and electrical appliances to enable intelligent automation, energy savings, and safety. The compact smart Smoke Detector is a silent guardian, detecting smoke and sending you real-time alerts. All three devices speak flawlessly to the Z-Hub, so one trigger can dim a bank of lights, ping your phone, or spin up a whole safety scene. Opt for smart protection. Save energy and worry less.

Code	Item	MRP
------	------	-----

### HYPER X PIR SENSOR

ZB092151	Smart PIR Sensor	9840.00
----------	------------------	---------

- Power & Connectivity Battery: 3V (CR123A or CR2450) or 5V USB
- Detection Range: 6-12 meters (typical 360 degree ceiling mount)
- Mounting Height: 2.5-3.0 meters
- Load Control: Wireless control via Z-Hub through G-world App.
- Environment: -10°C to +50°C, < 95% RH non-condensing
- Works with Goldmedal Z-Hub ecosystem communication with devices on G-World App.

Dimensions: 60x60x49 mm

### HYPER X MOTION DETECTOR

ZB092156	Smart Motion Detector	17710.00
----------	-----------------------	----------

- Input Supply: 110-240 V AC, 50/60 Hz
- Detection Range: 6-10 meters (typical), 360° (ceiling mount)
- Mounting Height: 2.5-3.5 meters
- Load Control: Wireless control via Z-Hub through G-World app
- Operating Temperature: -10 °C to +50 °C
- Humidity Tolerance: ≤ 95% RH (non-condensing)
- Works with Goldmedal Z-Hub ecosystem. Communicates with devices on G-World app.

Dimensions: Ø75 mm x 40 mm  
Cut-out: Ø0x00 mm

### HYPER X OCCUPANCY SENSOR

ZB092161	Smart Occupancy Sensor	11530.00
----------	------------------------	----------

- Power: Replaceable batteries (AA/AAA or coin-cell)
- Wireless Range: Up to ~70 m in open space as Zigbee mesh repeater
- Coverage Radius: Up to 7 m (360° ceiling detection)
- Operating Temp: -10 °C to +55 °C; humidity ≤ 95% (non-condensing)
- Works with Goldmedal Z-Hub ecosystem. Communicates with devices on G-World app.

Dimensions: 76x51x00 mm

## YOUR SPACE, IN PERFECT HARMONY.

### HyperX Curtain Motor & Track

Experience comfort, control, and convenience with our HyperX Curtain Motor & Track System. Effortlessly open or close your curtains using the G-World app, voice assistant, or automated schedules. Designed to blend seamlessly with your interiors, it brings modern elegance and intelligent living to any space. Whether you're waking up with the sunrise or setting the mood for a movie night, your curtains now work on your terms

OUR CLIENTELE

## OUR AMAZING HEADQUARTERS.

63 GMA –  
Goldmedal Corporate Head Office

Introducing Goldmedal's brand new corporate headquarters, a soaring symbol of innovation and productivity. Located at the heart of Mumbai's suburbs on S. V. Road, Goregaon West, this new business center of the company is well connected to the Western Express Highway, railway station, bus stops, and taxi stands. Home to the company's management and staff, 63 GMA has been designed with a captivating layered structure that harmoniously blends together to create a visually striking and architecturally pleasing building. Its innovative design encourages the entire Goldmedal workforce to work as a team toward a common mission.

The 31-storeyed glass façade headquarters has been designed to inspire creativity, foster collaboration, and drive productivity paving the way to a world of limitless possibilities. From open-plan areas to private offices, a sky garden, private decks, and spacious meeting rooms, this center offers versatile spaces that help teams to perform efficiently, making it a perfect place for work and play. For years, Goldmedal has pioneered the electrical industry by introducing cutting-edge technology and innovative products. The new headquarters of Goldmedal, equipped with state-of-the-art facilities and amenities, will continue to lead the company, ensuring a superior work environment that reflects the company's progress and success.

With 63 GMA, Goldmedal is all set to welcome a new era of innovation that will help unlock immense potential, achieve goals, and thrive in an environment that inspires greatness.
